Acknowledgement

As we gather here for the ribbon cutting ceremony for the new Westside Bazaar, we want to express our heartfelt gratitude to the remarkable individuals and firms who made this transformation possible.

First and foremost, we owe a huge thanks to Siobhan McDermott, President of Strategic Management Consulting, who served as our Capital Campaign consultant. Siobhan's guidance and vision were instrumental in making this project a reality.

We'd also like to thank CJS Architects and Courtney Creenan-Chorley, AIA, for their incredible architectural contributions. Their creativity and dedication shaped the Westside Bazaar into what it is today.

Gus Lima, AIA, of Gustavo Lima Architecture, played a pivotal role, and we're grateful for his expertise.

Lastly, Hayes Construction Services deserves our thanks for their construction and project management expertise. Their commitment to quality made this project a success.

Without their efforts, the former Illinois Alcohol Factory could never have become the Westside Bazaar we see today. Thank you for making this dream a reality for so many.
